PRINTS - PRESENTATION OPTIONS

How you choose to showcase your photographs is almost as important as choosing the image. It should ensure that the work will be viewed in a way that is consistent with and complimentary to your décor, and of course suitable for the context of the image. Anne-Marie can help you to put it all together to suit your needs and expectations.

Options range from simple signed matting that you will frame yourself, to classic gallery style framing, to frameless, mounted laminates for a clean, contemporary look

All photographs are custom printed, custom cropped, archival prints. Matted photos are ready for framing, signed and dated.

MATTING

Images are matted, signed and dated, and ready for framing. Matte is archival and acid free.

This is the most economical way of having Anne-Marie sign her work and ideal if you have a frame of your own in mind for the piece.

CANVAS TRANSFER
